AGENDA ITEM INFORMATION FORM

Agenda Item: Consider Ordinances Related to the Movement of Overweight Trucks on Infrastructure Surrounding Logistics Park Kansas City

Department: Administration

Background/Description of Item: In October 2013, Burlington Northern Santa Fe (BNSF) Railway will open Logistics Park Kansas City (LPKC). Logistics Park Kansas City is equipped to be one of America's premier logistics facilities. By locating their distribution center or warehouse at LPKC, intermodal customers can reduce transportation costs through lower drayage charges and more truck turns. As part of this project, the City of Edgerton has entered into a three party agreement with BNSF and Edgerton Land Holding Company, a subsidiary of NorthPoint Development. The project agreement dedicates the primary sources of new revenue associated with the development of Logistics Park Kansas City (LPKC) to funding the additional infrastructure needed to support the development of the park over time.

On August 22, 2013, the City of Edgerton held a work session to discuss the movement of overweight trucks on infrastructure surrounding Logistics Park Kansas City. During this work session staff presented the history of discussions in Edgerton regarding the movement of overweight trucks, research regarding current regulations within the State of Kansas and regulations in other intermodal jurisdictions. In addition, the city's consultant team presented the preliminary results of the concrete pavement study of Homestead Lane and 191st Street. Following that work session, staff has continued to research regulations regarding the movement of overweight trucks and has begun drafting ordinances based on feedback provided by the city council. In addition, the concrete pavement consultant is finalizing the results of the projected maintenance program.

During the September 12, 2013 City Council meeting, the Edgerton City Council set a special council meeting on September 19, 2013 to consider ordinances related to movement of overweight trucks in Edgerton.

Following the council meeting, city staff was contacted by our transportation partner, Kansas Department of Transportation (KDOT). KDOT has requested that the City of Edgerton consider delay enacting any ordinances regarding the movement of overweight trucks in Edgerton. KDOT has requested the opportunity to review the final concrete pavement maintenance program and explore a possible partnership between KDOT and Edgerton regarding future maintenance.

Related Ordinance(s) or Statute(s): N/A

Recommendation: Delay enacting any ordinances related to movement of overweight trucks in Edgerton for a period of 60 days

Funding Source: N/A

Prepared by: Beth Linn, City Administrator
