REQUEST FOR PROPOSAL

FOR

2021 STREET MAINTENANCE PROGRAM

June 2021

REQUEST FOR PROPSOAL FOR THE 2021 STREET MAINTENANCE PROGRAM

I. INTRODUCTION

The City of Edgerton is hereby soliciting proposals from interested contractors to provide UBAS/Ultra-Thin Asphalt, Chip Seal and full depth patching maintenance activities. The City of Edgerton requests that all construction activities be complete prior to September 30, 2021.

II. SCOPE OF REQUEST

The Department of Public Works is seeking separate submissions of bids for two (2) maintenance mediums. Consideration of two (2) separate qualified contractors, one for Ultrathin Bonded Asphalt Surface (UBAS) and another for Chip Sealing as outlined for 2021 Street Maintenance Program. Depending upon qualifications a contractor able to provide both maintenance mediums will be considered. Contractors will be expected to perform general Street Maintenance Services comprised of Ultra-thin Bonded Asphalt Surface, and full depth patching activities (see Attachment A: List of Quantities).

For 2021 the Edgerton Street Maintenance Program includes approximately 14,000 Square Yards of Chip Seal, 5,000 Square Yards of UBAS/Ultra-thin asphalt surface and 1500 Square Yards of full depth asphalt patching. All construction activities are in the residential portion of town.

III. PROJECT GOALS

The City of Edgerton intends to procure a contractor for a Project with an emphasis on the following goals:

- To provide high-quality surface maintenance for the intended sections of roadway.
- Ensure ease of access of affected residents and properties.
- To use sound engineering principles to evaluate innovative approaches and cost saving measures to optimize the available resources.

IV. PUBLIC INFORMATION

The 2021 Street Maintenance Program is a continuation of the Street Maintenance Program that the City of Edgerton has defined for the annual maintenance of the street network. Over the last several Citizen Surveys conducted by the City of Edgerton the residents have expressed infrastructure maintenance and improvement as one of the top priorities and desires. To this point the Public Works Department continually refines the Street Maintenance Program to provide the best maintenance and repair value possible.

It will be critical for the selected contractor and City staff to communicate intended maintenance activities and repair timelines to the residents. The City feels that informing the effected property owners about project schedule and what to expect during construction helps to streamline the program.

V. SELECTION PROCESS

- a. The City of Edgerton will open the sealed proposals/bids at **2:00 pm on Wed, June 30, 2021**. All proposals/bids shall be submitted at City Hall 404 E Nelson St, Edgerton KS 66021, submissions should be given to the City Clerk for recording of date and time stamp.
- b. The City of Edgerton will select the lowest qualified bidder for the 2021 Street Maintenance Program.
- c. It is of utmost importance that the requested information be submitted with your Proposal. The approved contractor must be qualified to work in Johnson County, hold insurance and have bonding capacity for the scope. Failure to submit any of the required information may result in your firm being disqualified from the Selection Process.
- d. The City of Edgerton reserves the right to reject all proposals, to waive minor defects or technicalities, or to solicit new proposals for the same project or a modified project that may include portions of the originally proposed project as the City of Edgerton may deem necessary.
- e. The contract between the City and the selected Team shall not be considered accepted, approved or otherwise effective until the legally required approvals and certifications have been given.
- f. The City shall not be liable for any costs associated with design- or construction-related activities on this Project that have occurred prior to the issuance by the City of a Notice to Proceed. The Team shall proceed at their own risk and expense should any design- or construction-related activities commence prior the issuance of the Project Notice to Proceed by the City.
- g. Contractor must hold or obtain the City of Edgerton Business License prior to beginning work.
- h. Questions during the RFP period should be directed to:
